of our customers yesterday said he had been worrying for three weeks over a suit at one of the best tailor shops in town. The suit had been altered a dozen times, and still didn't fit. We fit him with a dozen suits in as many minutes. Gave him the same fabric, same style, and as nicely finished garments at \$20 as he was going to pay the tailor \$35 for. We saved him \$15 and made a permanent customer of him. Can do as well for you if you'll only try us

decree.

The order, however, raised such a clamor from the various parties affected that the time for removal was extended to the 16th of the present month. The bogus farmer has, for many years, conducted his operations openly along the curb on B street, and has combined his real profession of huckster with that of deceiving the public on market days into buying his wares as farm produce, direct from the his wares as farm produce, direct from the country, whereas in every case it was simply bought from wholesale commission merchants, carted to B street, and sold at prices which successfully competed with those of the bopa fide farmer.

The only objectionable feature of the order is that the real farmer must suffer for the deeds of others, and stands which have been acquired by them, held con-tinuously for years, and a valuable trade built up, must be given up, and the scene of operations on B street, between Seventh and Tenth, must be changed before the 16th to the same street between Tenth and

The old haymarket reservation, which has of late years stood as a vacant lot has been fitted up with stands in anticlpation of the present order. There are only about 240 of these stands, bardly a sufficient number to accommodate the wholesale dealers, or, in other words, those lealers who will not sell less than a pack-

DEALERS AND CUSTOMERS WORRIED. As the order of the Commissioners af-fects hearly five hundred persons, the question arises, what will become of the large number that cannot be accommo dated on the baymarket reservation? They must occupy the curbing and road-way along B street between Tenth and Twelfth, which will cause crowding and both customers and dealers. As the mat-ter stands at present, those people who patronize the butchers and dealers having dands inside the market pear B street status inside the market near B street can step out on the sidewalk and pur-chase fresh country vegetables from the farmers having stands under cover of the protecting shed.

In many cases the farmers depend solely upon market-day trade for their living-Many of them have occupied their present locations for twenty or thirty years, they were there before the present market house was built, and in the days of the old canal. and they are fearful that if they are com pelled to move their present patrons will prefer to buy their country produce inside the market, even at a slight advance in prices, rather than be put to the trouble and inconvenience of going two or three

squares up B street. The present location has many advantage that would not accrue should the change be made. It is convenient to both the Seventh-street and Ninth-street carlines, and on rainy days the large number of customers who use the street cars as a means of reaching the market, and who are the ones who patronize the small dealers, can step from the car to the protection of the roof that overhangs the sidewark without serious inconvenience from the beaviest downpour. WAS DEAD IN JAMES CREEK | TO CONTROL OF THE CONTROL

Nettie Thomas' Body Fished Out of the Death Trap.

It Was Murder or Saicide and the Police Credit the Latter Theory.

What was either a suicide or a murder occurred at midnight last night in South Washington, and at an early hour this morning a woman's body was dragged out of the filthy, recking water of James Creek canal at K street.

This death adds one more to the long list of unfortunates who have closed their earthly affairs under the hideous water of

carthly affairs under the lideous water of
this dangerous waterway.

Nettle Thomas, white, who lived at No4 L street southeast, either jumped into
the water orfell in as a result of a struggle.

People nearby heard the splash followed by cries of help. Rushing to the
side of the waterway they saw a dark form
struggling in the water. After a lew

toub it sank and was seen no more. tomb it sank and was seen no more Many suggestions of rescue were made, but nobody went to the aid of the drown-ing woman.

The police were notified of the death and at 1:30 o'clock the body was recovered.

Nettie Thomas and Herman Martin, who keeps a store at 407 Seventh street north-west, and lives at 702 T street north-west, were walking towards the canal. At one of the streets close to the water At one of the streets close to the water they parted, Martin to go to First and K streets, and Nettie to go home. As she reached the edge of the canal, she is said to have cried "Goodby" and spring into the water. It is said that there was

a disagreement between the man and woman when they parted, and that it was because of this that the woman committed suicide. Martin was not held by the police as there was no evidence on which this could be done. An inquest will probably be held this afternoon

DRINKS WITHOUT PRICE.

Samples of Wines and Liquors Distributed Free at Atlanta.

The Treasury Department has settled the question regarding the free distribution of samples of whisky and wines at the At-lanta Exposition, which has long vexed the officials. Free whisky has finally won. Among the many foreign exhibitors are several houses which deal exclusively in wines and liquors. They had samples of their liquors put up in small bottles, which they distributed free among people who visited their exhibits. Under the law all articles imported for the exhibition were permitted to come in free of duty, provided an indemnity bond was filed by the importer to pay duty on all articles not returned after the exhibition. On articles sold during

the exposition the usual duties attaching to such articles are imposed. The foreign wine and inquor dealers con-tended that their wares, unlike all other wares, could only be judged by con wares, come only be judged by con-sumption; that the quality of their goods could not be determined by looking at the bottle containing the liquor or in smelling the cork with whichit was bottled. They were perfectly willing to pay the duty attaching to the liquors and wines sold, but asked that duty on sample quantities of liquor distributed free, be remitted. The Trensury has endeavored in various

ways to reach some satisfactory test of the quality of liquor, except by drinking it, but without success, and finally Secretary Carlisie has fallen back on the old Treasury regulations applied to the World's Fair and the California Exposition which permitted the free entry of liquors for free distri-bution as samples at the Atlanta Exposi-

Atkinson was driving a wagon, owned by one Fearson, along Rhode Island avenue, near Sixteenth. The bit in the mouth of Atkinson's animal broke near the center and it is thought the sharp edges of the metal bit gouged the horse's tongue, causing it to run away.
When near the corner of Fourteenth street Atkinson sprang from the vehicle. His foot struck the seat ledge and he fell head first on a stepping stone at the curb,
